

AL-200

Mute Lock

Features

- Electric locks, sound light, wear-resistant
- LED indicator, lock status
- Auto-lock, all directions
- Input: NO/NC signal
- Wide voltage(12~18V)

Technical Specification

Electronic

Rated voltage	DC12-18V
Instantaneous current	1.5A
Power-on time	0.25s
Power	4W

General

Applications	Wooden doors, glass doors, metal doors
Life	>100 W
Dielectric strength	250V (2 minutes without breakdown)
Power line resistance	<1.5

Working Environment

Working humidity	10%~93%RH
Working temperature	-40°C~+70°C
